

Dreams and Perfume

Venue 51 for Glasgow Open House

Three artists exhibit their current dreams and fantasma. Young, gorgeous and without responsibilities they cover the state of excitement and panic that brings the new year. Their flat exudes their personalities, their realities : what is the line between their life and work.

Immersed in an occupied space, moving image, sound works, painting and sculpture are amongst belongings, music, perfume, cats.

Via their works, relics of our time, the artists question our sense of connection, feelings and ability of projection. The promise of a languorous vision of the future. #gravity
